Date: Friday, 19 June 2020
Quotation Ref: 47170

Dear Sarah

To provide safer surfacing for Market Deeping Town Council.

Project Brief

We have pleasure in submitting our proposal for replacement safety surfacing and engineered drainage foundations to existing playground equipment installed within John Eve Park. Our proposal has been based upon the requirements following our recent site meeting between Martyn Lilley and Brian Hembrow and provides for the following works.

-  Teacup Roundabout – Full surface uplift, removal, and replacement
-  Cobra Seesaw – Full surface uplift, removal, and replacement
-  Toddler Swing – Full surface uplift, removal, and replacement
-  Mystical World – Full surface uplift, removal, and replacement
-  Hurricane Swing - Full surface uplift, removal, 200mm stone base and replacement
-  Pendulum Swing - Full surface uplift, removal, 200mm stone base and replacement

When choosing FLP to design, manufacture and install your new design you will benefit from the following;

-  An independent family owned company who have been designing, manufacturing and installing play solutions in Schools and Nurseries, Parks, Leisure Amenities & Local Authorities for **25 continuous years**.
-  All the members of our installation and groundworks team are directly employed by FLP.

Don't just take our word for it, come and see for yourself. As we operate an open manufacturing environment, we would be more than happy for you to arrange a visit to our offices and workshop here in Cambridgeshire.

Project Construction Information.

Surfacing Materials

Fibrefall – (Bonded Shredded Rubber Chippings)

Fibrefall is an all-weather rubber surfacing constructed with resin bonded recycled colour coated rubber chips which is laid to existing ground contours and can be installed to comply with the current surfacing standards of EN1177. Available in either Green, Brown or Cedar Red, Fibrefall provides a continuous surface and can be installed onto a wide range of substrates including turf, tarmac and concrete, and benefits from requiring minimum basework preparation and no formal edging. Applications include impact areas, all weather surfacing and pathways.

Wetpour Rubber Surfacing

Wetpour Rubber is a hard wearing all weather safer surfacing which can be used for a wide range of applications including play areas, pathways, sports surfacing and other all-weather applications. It is available in a wide range of colours and can be designed with unique

Fenland Leisure Products Ltd

graphics layouts. Wetpour is usually installed onto an engineered subbase, retained by a kerb edging and is laid in 2 parts – A base course of recycled rubber and a fine 20mm topping of EPDM rubber. Our surfacing has undergone and continues to undergo extensive independent testing to ensure that our Wetpour surfacing complies with all current British and European Standards of Surfacing EN1177.

Project Assumptions?

The following assumptions have been made regarding this quotation:

- FP** Good access will be available to the site.
- FP** Equipment to be installed into current turfed area.
- FP** It is assumed that the current base is stable.

Contract Terms and Conditions

- FP** All the enclosed prices are subject to VAT at the standard rate.
- FP** All equipment and surfacing complies with EN1176 and EN1177.
- FP** All our equipment is installed with Critical Fall Heights (CFH) compliance to EN1176/EN1177 /EN16630.
- FP** Once the equipment and or the surfacing has been installed and handed over we take no responsibility for any damage through abuse / vandalism or acts of god that may occur.
- FP** Our quotation is open for acceptance for **60 days** from the quotation date.
- FP** All materials and guarantees are referred to in our product specification.
- FP** Security fencing can be supplied and erected at extra cost if deemed necessary by the customer.
- FP** We will accept NO responsibility for detecting services or I.T cables etc. These should be clearly marked by others before any installation work commences.
- FP** Suspension bridges, Burma bridges, single ropes and access nets are designed for a maximum of 1 person crossing at any one time; however additional people can be waiting to cross on the timber structures.
- FP** Guarantees:
 - o 15 Years on all structural timbers against rot and timber decay – subject to the outer treatment envelope having not been damaged. (Dry rot is NOT covered)
 - o Timbers cannot be guaranteed against rot and decay when installed into loose fill wood product surfacing. (Dry rot is NOT covered)
 - o Please be aware that in the case of Black Wetpour surfacing, colour fastness cannot be guaranteed, and some colour leakage may occur.
 - o 1 Year on all moving and flexible parts. 1 Year on all installation work (*Malicious damage, vandalism and acts of god are not covered*)
- FP** Layout drawings and plans to be agreed and signed by the customer prior to the product being manufactured if an order is placed.
- FP** The colour of our Fibrefall surfacing will darken after a period of time as the vibrancy of the colour coating diminishes.
- FP** Ownership of goods remains the property of Fenland Leisure Products Ltd until invoice is paid in full.
- FP** Please visit our website www.fenandleisure.co.uk to view our full terms and conditions.

Fenland Leisure Products Ltd

Payment and Delivery Terms

Payment:

-  **Trading Accounts** - Total invoice payable within 28 days of project completion
-  **Schools / Local Authority** - Total invoice payable within 28 days of project completion
-  **Pro-forma Account** – We can also accept payment by Bacs or any major payment card.

Delivery: **6-8 weeks** from official order subject to seasonal demand and external supplier product and services leadtimes.

We trust the above quotation meets with your approval and look forward to receiving your further valued instructions in the near future. If in the meantime, you need any further information or changes making to this proposal please don't hesitate to contact me.

Yours Sincerely

Andrew Sparrow
Managing Director
